Have your rights been violated due to disability? Want to learn more about your rights and have your say?

P&A advocates for Kentuckians with disabilities. We're having a public forum to tell people about their disability-related legal rights in education, institutions, voting, employment and housing.

Please plan to attend and share your disability related concerns with us. Staff from P&A will be there to listen and explain your legal rights. Directions are attached.

If you can't attend, and want more information, contact P&A at (800) 372-2988 or www.kypa.net.

This forum is being held in conjunction with a Federal site visit by the Protection and Advocacy for Individuals with Mental Illness (PAIMI) Program, the Center for Mental Health Services (CMHS) within the Substance Abuse and Mental Health Services Administration (SAMHSA), US Department of Health and Human Services (DHHS).
