

You spend a lot of time making your flyers and brochures look good. But can everyone actually access them?

## Five Habits for Creating Accessible Documents

some type of disability that could create a barrier that affects their ability to access digital information.

Now more than ever, the need to create accessible documents is at the forefront of our minds. Twenty-six percent of adults in the United States have

### Topics Covered:

- fonts,
- layout,
- images,
- styles,
- tables,
- built-in accessibility tools

This free webinar offers highly actionable advice that you can instantly incorporate into your day-to-day workflow to assure your document is readable by individuals with disabilities.
