

Everyday Solutions to Vision Loss

Cutting Edge Assistive Technology for
Low Vision and Blindness

Meet EYE can see, Inc.

EYE can see Inc. Company Bio

- We started EYE can see in 1998 to provide services and products for individuals with vision loss. We are local providers of assistive technology for low vision and blindness in Indiana and Kentucky, and are the authorized dealers for Optelec, OrCam, LVI, HIMS and Freedom Scientific products including their software portfolio of JAWS, ZoomText, Fusion and OpenBook. We focus our treatment on clients' specific needs and goals, and how these are best met in their environment. We provide everything from low vision to blindness solutions, hardware and software. Our demo center is in Indianapolis, but we have local representation in Kentucky and provide on-site demonstrations and trainings of our products along with lifetime support.

Hardware Solutions - Low Vision & Blindness
