

Meet Glean!

The note taking support tool that
improves grades and study skills

Your *note-orious* host

Paddy Heaton

Event & Community Lead

Glean's expertise

15 years working with students with disabilities developing study skills

Developed note taking assistive technology to improve learning

We've helped over 200,000 learners and 600 colleges

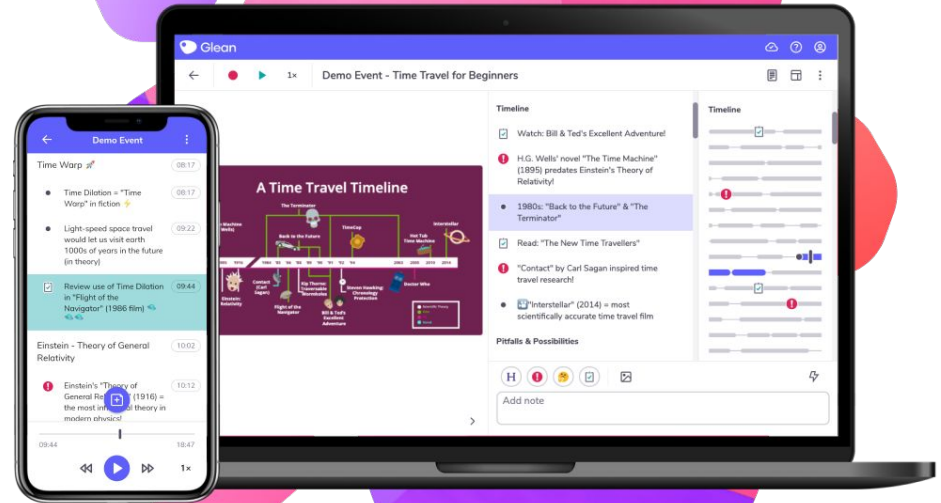

Multi-award winning service, recognised for its impact on learning

Introducing Glean

Glean is a web and mobile based audio note taking app that's designed to develop students' note taking skills.

Improve learning outcomes *and* inclusivity with a complete note taking support solution.

What are we going to cover?

- ✓ Glean demo
- ✓ Thoughts from students
- ✓ Your next steps with Glean

**The challenges of note taking for
students with disabilities**

The note taker's dilemma

Note everything
down in class?

OR

Engage in
the moment?

Demo time! Take note of these things

**Glean works
offline**

**In-person and
remote classes**

**Accessible via web
and mobile app**
